# FENDT CARAVAN

# BRILLANT

***Brillant – Luxury in Perfection.***

***Brillant is a top-class caravan. It is easy to recognise the highlight of Fendt caravans from the outside and from the inside as well.***

***BRILLANT***

**BRILLANT**

### Active areas

**Living area:** Furniture in "Virginia Tulip wood" finish • upholstery variants "Reno" • hard-wearing and easy-care PVC flooring • looped and loosely laid floor carpet • carpet at the door • seat upholstery with high strain hardness • shaped back upholstery • storage compartments • two cushions and a table runner • wooden sliding door \* • indirect 12 V LED lighting of the round seat group • 12 V LED reading light • radio with CD player and integrated loudspeakers • underfloor heating • partition \* • TRUMATIC S5002 with open-fire cover • 26 inch TFT TV set and receiver (650 TF and 700 TFD) • light switching system with remote control and graphic display unit (LCD-Display) • single column lift table • starry sky

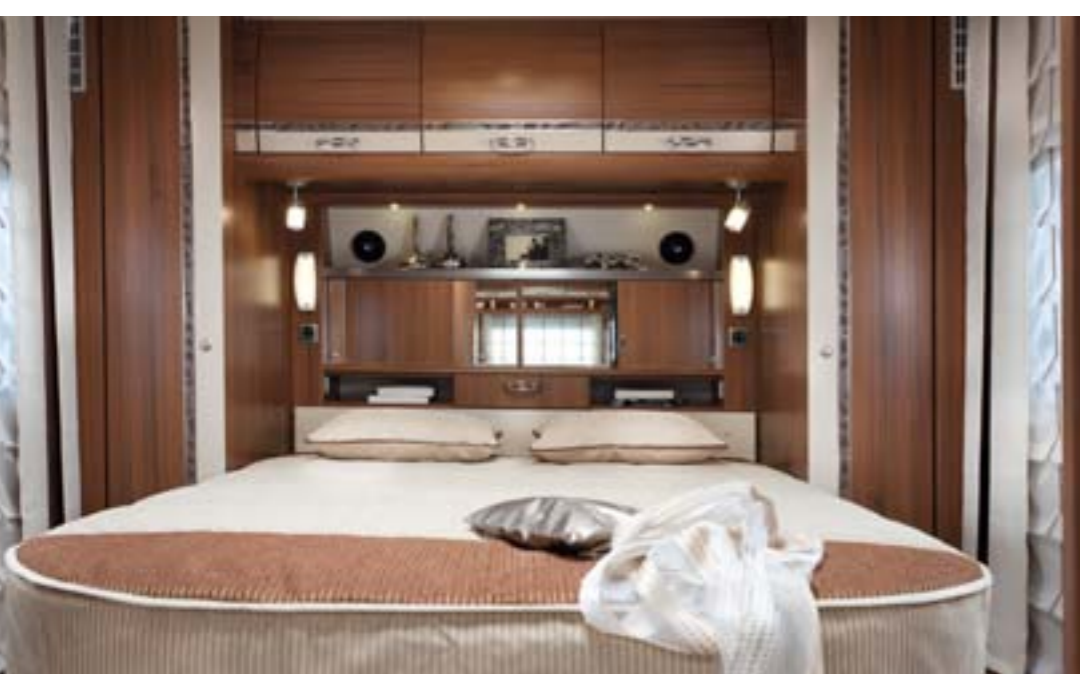

**Kitchen:** Tec-Tower (175 litres (46.2 USgal.)) with separate refrigerator and gas-fired oven \* respectively Slim-Tower (140-litre (29.5 USgal.)) refrigerator \* with removable freezer compartment and interior lighting • stove with three hotplates and sink combined, safety pilot and divided glass cover • electric water supply • automatic mixing tap • cutlery drawer with guide rollers • kitchen drawer with wire basket • kitchen centre with 12 V LED light and range hood

\* Depending on model

**BRILLANT**

### **Resting areas**

**Sleeping area:** Slatted frames with adjustable head section, completely flexible and permanently elastic joint as well as adjustable firmness for all beds • high-quality comfortable foam mattresses • bedspread • two cushions • LED reading spots • indirect LED light • LED mirror light • 3-D night-sky ceiling module

**Bathroom:** Illuminated mirror • raised cabinet with mirror and trays \* • 12 V LED lighting • brilliant chrome stainless steel washing basin with base cabinet and trays • towel rack, coat hook and toilet paper holder in chrome finish • hinged bathroom window with frosted glass, shade and fly screens \* • electric water supply • 230 V water heater with automatic mixing tap • flush toilet with filling level diode indicator

\* Depending on model

**BRILLANT**

The calculation of caravan weights is based on EU Directive 97/27/EU as well as German / European standard DIN EN 1645-2. As a rule the loading capacity mentioned is reduced as the weights for gas and water as well as power supply are included in the weight in road-worthy condition. The technically permissible overall weight in loaded condition must not be exceeded by any means.

## Body

Sandwich construction • gas cylinder locker cover with gas shock absorbers and three-point locking mechanism • combined rear and braking light • two rear fog lights • two reversing lights • entrance door with integrated and insulated entrance, rubbish bin and tray • tinted window, shade and fly screen in the upper entrance door section • central locking system • four two-point grab handles • awning lamp • service flap in the side wall • roof railing • chromium appliqué • LED light in the entrance door • front and rear made by LFI process

## Chassis

Fully galvanised lightweight chassis • Euro axle system • shock absorbers • automatic reversing mechanism • safety coupling AKS 3004 • low profile tyres • aluminium rims „hyperblack“ • spare wheel carrier including spare wheel on steel rim\* • drawbar cover • hub caps\* • AL-KO “big foot” support wheel • galvanised stabilisers • support wheel with load indicator • extended steady leg

## Insulation / ventilation

MIDI roof light with crank, forced ventilation, integrated pleated shade and fly screen • fully insulated wheel housings • double glazed and grey tinted hinged window • Seitz MINI roof light with forced ventilation, integrated pleated shade and fly screen\* • ventilated storage compartment • winter backrests • single-hand soft control blinds and combined fly screen blind in pleats design

## Heating / electrical system

Trumatic S5002 gas heater with thermostat and automatic ignition with double 230 V blower\* • floor heating • 230V fuse-box with GFCI circuit • 400W power supply outputs • 230 V CEE outdoor socket • 12 V LED light in the wardrobe with motion detector • main switch at the entrance door for integrated light and awning light (12 V) • electric water supply with electronic water level indicator • 230 V water heater with automatic mixing tap • 45 litre (11.8 USgal.) fresh-water tank with external ventilation • wheeled waste water tank • air-conditioning system Dometic B 2200 F including remote control • smoke detector • antenna cable laid • light control system with contact switch and remote control in the living and bedroom area

Layouts

**BRILLANT**

**Glass-fibre reinforced roof** with improved hail protection.

**Front and rear made by LFI process** (method to process fibre-reinforce polyurethane systems), especially stable and resistant.

**Support wheel with harder rubber cover and load indicator** for easy control of the support load.

**Front and/or rear window** integrated flush without projection. (Depending on model)

**Combined LED tail and braking lamp**, thus ensuring triple safety in road traffic.

**Integrated, stable grab handles at the left and right rear side**, shaped pleasantly and ergonomically.

**Inside doorhandle**, integrated entrance door with awning lamp, rubbish bin on the inside of the door and an integrated window to be opened completely with shade and fly screen.

**Practical entrance door** with single-key locking system for all locks. The illuminated door "Brillant" ensures safe entry.

**New type of 3-D night-sky ceiling module.**

**Multimedia cabinet** for radio, 26" TFT TV set, receiver and DVD (650 TF and 700 TFD).

**Kitchen with large drawers** that include a self closing mechanism

1.

2.

**1. Slim-Tower, 140 litre (50.1 USgal.) refrigerator** with integrated freezer compartment and illumination.

**2. Tec-Tower, 175 litres (46.2 USgal.)** with lighting and separate freezer compartment.

**Headroom 1,950 mm (6.3 ft.)**, thus feel of generous space. The blinds which have been mounted at a higher point ensure a pleasant view through the window.

**Window soft screen in pleats design** with material-protecting and low-noise return dampers.

**Central switch panel in the entrance area** for light, water level indicator, time/clock, temperature and underfloor heating

**Divided slatted bed frame with height-adjustable head section.**

# QUALITY

**which pleases. Values that stay.**

All data, descriptions and illustrations on prices, scope of delivery, technical data, construction, equipment, material and appearance were valid at the point of printing of the brochure and thus are non-binding. Fendt-Caravan reserves the right to carry out modifications which seem necessary for design and/or sales reasons, and which are not intolerable to the buyer. Colour differences caused by the printing process and the photographic equipment cannot be excluded entirely. Weight data may differ up to +/- 5 per cent on account of the fact that natural materials are used. The weight of the road-worthy condition increases, if and when accessories are fitted. All dimensional data are non-binding and may be subject to slight modifications. The models shown in the brochure may contain special equipment and/or decorations which are not part of the standard scope of delivery. On account of legal regulations in different countries, deviations from the model variants and equipment described here are possible. For organisational reasons it is not possible to pick up the vehicle in the works of the manufacturer.
